GRILLING IS A YEAR ROUND RETAIL OPPORTUNITY

Gone are the days associating barbecues with summer. Grilling is now an everyday cooking experience for many. Everyone loves sear marks on a good steak, or the smoky infusion of flavor from grilling salmon on a wood plank. This desire for a year-round experience has and continues to drive new, breakthrough products as well as improvements to tried and true tools. Don't take our word for it – see (or taste) for yourself!

When it comes to cooking over an open flame, nothing is off the table – or grill, more accurately! Everything from appetizers to entrées and even desserts are being thrown on blazing grill grates to get that fantastic, flame-licked flavor. In the pages of this catalog, you'll find ways to grill up any food you can think of – and even those you haven't yet! We here at Charcoal Companion® are proud and excited to show you our tried-and-true barbecue tools and accessories, as well as new innovations guaranteed to change the way you think about cooking outdoors.

Whether in the kitchen or at the grill, there are delicious dishes that are passed over because they're thought of as too difficult or time-consuming. We've made it faster and easier to power through your prep and get cookin'! Our Hasselback Potato Slicing Rack guides you through making the precise cuts needed to shape your potato into the traditional style, resulting in potatoes that cook faster than your usual baked spuds – but can still be loaded with toppings! Kabobs are a menu mainstay, but threading each ingredient piece by piece onto the skewer can be frustrating and tedious. Our Skewer Express™ Easy Kabob Loader not only directs your skewer through all your ingredients at once, but it contains any mess and transports your kabobs safely to the grill.

Many of the products in our line harness the power of the grill to create mouth-watering meals. Our PizzaQue® BBQ Pizza Baker replicates the high heat of a pizza oven right on the grilltop! Its cordierite stone absorbs and radiates heat to bake a crispy, evenly-cooked crust. The steel hood traps and reflects heat down onto the top of your cooking pie so that your toppings are done at the same time as your crust. Adding to an already best-selling product family, our Flame-Friendly® range has grown with the addition of our Flame-Friendly Rib Rack and Bacon Bowl Rack. Both are made of high-heat ceramic that absorbs and distributes heat like cast iron, but without the weight and maintenance.

While flipping burgers and searing steaks is the fun part, good grillers know that keeping their grates clean is essential. Dirty grill grates can contaminate food with unwanted flavors. Our Safe-Scrub™ bristled brushes take a dual approach: first, the twisted-wire design secures bristles while retaining flexibility. The bristles themselves are made from durable nylon that's heat-safe up to 440°F.

This is just a taste of what we have to offer in the following pages of this catalog. Our products are the result of connecting and sharing ideas with each other and with our customers. Please do not hesitate to contact us, by phone or email, with any questions or comments.

HIMALAYAN SALT

smoke & flavor

Himalayan salt is both the ingredient and the cooking method taking the culinary world by storm. Food prepared on classic salt plates takes on a rich, subtle mineral flavor while using less actual salt than when using table salt. Now, we've expanded our line beyond the plate, with new salt shapes and plenty of accessories to complete your gourmet experience.

A - Salt Plate - Rectangular – CC6036

Our largest plate; works well for searing vegetables or proteins. Two may be used to cook a chicken in between for a fantastic alternative to “chicken under a brick.”

B - Salt Plate - Set of 4 Small Squares – CC6059

A set of four small plates offers some flexibility when it comes to grill space. Use together as a 10 in. x 10 in. area, or separately, to sear and serve individual plates to impress a crowd. These small plates also fit easily in the freezer, to chill ahead for cold food presentations such as desserts or sushi.

C - Salt Cone – CC6068

This cone and holder set harnesses the cooking power of solid salt: by preheating your cone and then placing your chicken over it, the heat retained by the cone will help to cook your chicken, all while imparting a subtle, salty flavor.

D - Salt Chunks with Stainless Steel Grater – CC6056

Himalayan salt is rich in trace minerals, which add to the depth of flavor your foods will achieve when cooked. Salt chunks offer a way to impart flavor without the heft or bulk of a salt plate. 32 oz. Includes hand-held salt grater.

E - Himalayan Salt Plate Scrubber Brush – CC4108

Keep your Himalayan Salt Plate in prime condition for grilling and serving with the Salt Plate Scrubber Brush. The hand-held scrubber has nylon bristles to gently clean the surface of the salt plate, and a stainless steel blade to remove baked-on food bits or glaze.

F - Salt Plate Storage and Carrier Tote – CC5151

Whether you're just taking it to the grill or taking it on the road, protect your salt plate! This convenient carrying case can be used for either 8 in. x 12 in. or 8 in. x 8 in. salt plates. With its smart construction and reinforced cover, your salt plate will be well protected. Sturdy webbed handles offer easy handling. This tote is also perfect for storing your salt plate when not in use.

Himalayan Salt Cone with Holder

Cook your chicken from the inside out, while flavoring it with the rich taste of Himalayan salt! Whether on the grill or in the oven, your chicken will cook faster than with a traditional rack. It also uses less salt than when using ground table salt. Himalayan salt cones have naturally low moisture contents, which allow them to be heated to extreme temperatures and to retain that heat for a long time.

HANGAR STEAK WITH EXOTIC MUSHROOMS AND GREEN BEANS

Give a traditional cooking technique, the hangar steak a new world treatment by being cooked inside and flavored. Just a few minutes per side on the salt plate is all it takes to bring the magical out of beef to life. Served with an earthy blend of grilled exotic mushrooms and rich, charred king beans you will find this recipe to be a satisfying, protein-rich feast.

- Ingredients:**
- 1. hangar or skirt steaks, trimmed and cut into four pieces
 - 1/2 lb. green beans, stems and beans, stems removed
 - 4 tbsp. unsalted butter
 - 2. garlic cloves, minced
 - 1 container fresh mix mushrooms (enoki, pioppo, chanterelle or oyster), cleaned
 - 1 tbsp. olive oil
 - 1/2 tsp. black pepper
 - 1/2 tsp. salt

Method:

Preheat the salt plate for 40 minutes on the grill. 10 minutes on low, 10 minutes on medium and 10 minutes on high. Brush the steel plate with olive oil and rub with pepper. Set aside.

Meanwhile, blanch the beans in boiling water until the colors become vibrant, approximately 3 minutes. Drain the beans immediately into an ice water bath to stop the cooking process. Once drained, drain and set aside.

Heat butter in a skillet over medium heat, then add the minced garlic and cook until the butter is light golden brown. Then add the cleaned garlic and garlic butter mixture and set aside.

Place the grill over high heat. Season steaks on one end and season mushroom. Cook mushrooms until they begin to brown lightly and become soft. Remove from the heat and set aside. Use the same grill area to cook the steaks until they are charred and tender. Set aside.

SMOKERS, PLANKS, CHIPS & PELLETS

smoke & flavor

The ancient art of smoking lives on even in this era of gas grills! Add great smoky flavor to food with your choice of wood chips, pellets, planks, and more. Whichever fuel you choose, our wide variety of smoker boxes and plank savers will help maximize each mouth-watering bite.

A - Non-Stick Rectangle Plank Flexi Basket – CC3136

Turn and move your plank-cooked meal with one motion! With this flexible grilling basket, you can place any cut of meat (or even several!) inside with a wood plank, and easily maneuver it over your grill. Basket is perfectly shaped to hold a standard 5" x 12" wood plank. Interlocking non-stick links expand to securely hold food.

B - 3-Tier Plank Rack with Cedar Planks – CC6072

With this 3-tier plank rack, you'll be able to cook multiple dishes at once, saving space on your grill while adding flavor! Cook up to three planks full of food on your grill, adding moisture and flavor for tender results every time. This rack also makes for an impressive presentation when used to serve at the table.

C - Stainless Smoke Bar – CC4122

Traditional smokers create a smoky environment within your grill that adds delicious flavor to your meal. This extra-long smoke bar packs even more punch! A directed vent forces the smoke out exactly where you want it: onto your food. Smoke bar can use either wood pellets or traditional wood chips, and even better, you can skip soaking the chips ahead of time and pour them right into the box! 14 in. x 3 in. x 2 in.

D - Cast Iron Moistly Grilled® Grill Humidifier – CC4071

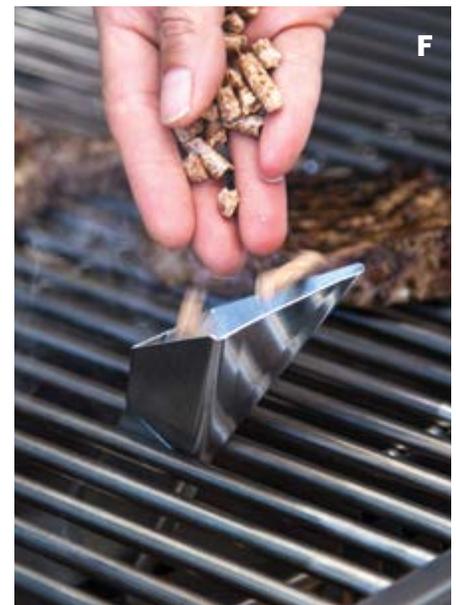

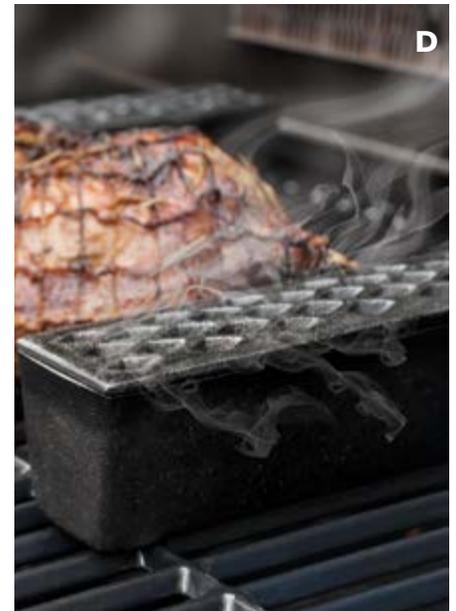

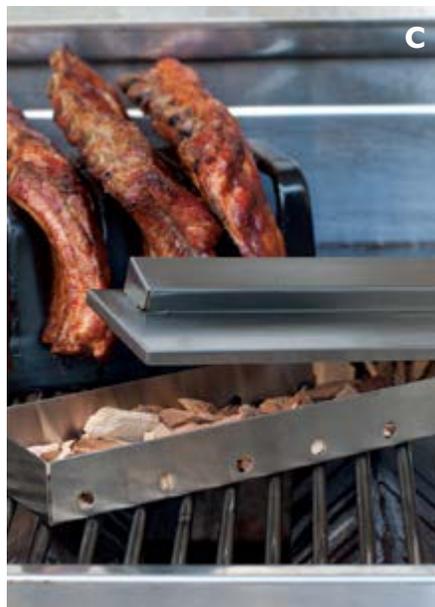

Adding humidity to the grilling environment makes a huge difference. Smoky flavor is better infused, and more of the meat's natural juices are retained. The Moistly Grilled® Grill Humidifier is a two-piece cast iron vessel with a vented lid that goes onto the grill and holds your choice of liquid. Place one on each end of the grill and the result is the juiciest, most flavorful grilled meat ever! Set of 2, 11 in. x 2 in.

E - Non-Stick V-Shaped Gas Grill Smoker Box – CC4056

Use with wood chips for authentic wood smoke flavor. Unique V-shape fits under the grate between flame deflector bars on most gas grills. All V-shaped smoker boxes have hinged lids.

F - Stainless Steel V-Shaped Gas Grill Smoker Box with Pellet Tube – CC4099

Unique V-shape fits under the grate between flame deflector bars on most gas grills. 13.75 in. x 4.25 in. Stainless steel. Pellets sold separately.

A - Non-Stick Perforated Grilling Pan – CC3127

When not in use, clip your needle tips to the injector's cap for easy storage.
