Best of Barbecue™ tools and accessories from the multi James Beard Award-winner, Barbecue Hall of Famer, and host of Project Smoke and Primal Grill on PBS.
Steven Raichlen has been called the “Shakespeare of barbecue”, but the ultimate goal of his long career has been to bring the joy of live fire cooking to people across all demographics and skill levels. After all, live fire is the world’s oldest and most universal cooking method. It’s easy to see why Raichlen would dedicate his life to exploring the world of smoke and fire in more than 50 countries on 6 continents. His decades of experience have resulted in 30 books, 14 TV shows, 5 James Beard Awards, and, as of this year, entry into the Barbecue Hall of Fame.

This year also brings the second season of his popular PBS TV show, Steven Raichlen’s Project Smoke, and the gorgeous full-color Project Smoke companion book. Raichlen’s new direction reflects the exploding interest in smoking from the barbecuing and grilling public. More and more of us want to introduce soulful smoke flavors into our food, whether we grill over a hot fire or smoke the traditional way — low and slow. To meet smoke’s growing popularity, Raichlen has introduced new smoking products in his Best of Barbecue™ product line, including his Stainless Steel Smoke Pucks, Cast Iron Smoking Grate / Plancha, and Smoked Food Log Book.

But Raichlen hasn’t neglected the grilling classics. Everything you need for a cookout is here in this catalog. Grill baskets make cooking even the most difficult and delicate foods easy; racks for ribs, seafood, and even potatoes save space on your grill; oversize grill brushes and other ingenious tools make grill maintenance a snap. Whether for beginners or seasoned griller, these tools will help you take your grilling game to the next level.

No matter who’s at the grill, no matter what’s on the menu, the Best of Barbecue™ line of products will bring Steven Raichlen’s expertise home with you. The explosive flavors you’ll experience are the kind of result that a true passion for grilling can bring.

Soak and drain your wood chips to make filling your smokers fast and easy.

Direct your smoke where you want it – on your food! These small smoke pucks let you get in close and target the food you want to flavor.

STAINLESS STEEL SMOKE PUCKS
Traditional wood chip or pellet smokers create a smoky environment within your grill that adds delicious flavor to your meal. But these small-but-mighty smoke pucks pack even more punch! Directed vents force the smoke out exactly where you want it: onto your food. This set of two pucks also allows you to surround your meat with flavor, and their small size lets them get in close! These pucks can use either wood pellets or traditional wood chips, and even better, you can skip soaking the chips ahead of time and pour them right into your smoke puck! Wood chips sold separately.

PAELLA PAN
Originating in Spain, paella is now internationally known. A good paella starts with short grain rice and saffron, cooked in a wide shallow pan. After that, nearly as many variety of ingredients may be used as there are inspirations to be had. Paella is traditionally cooked in the open air over a hot crackling wood fire so that the dish can be infused with the smoke flavor. As the rice absorbs the cooking liquid, the rice in the bottom of the pan toasts to a crispy golden brown. This is called the socarrat and is one of the delights of paella. Our pan is stainless steel so it takes kindly to high heat and vigorous spoon and spatula technique for the best socarrat. Stainless steel.

“Barbecue isn’t a noun. Or a verb. It isn’t a piece of equipment (the so-called barbecue grill). It isn’t a cooking technique—low and slow with plenty of wood smoke. It isn’t a meal cooked and eaten outdoors. … It’s all of those things … and it’s the story of humanity itself.”

– Steven Raichlen
